

Create a Tea Destination with TEAZZERS

TEAZZERS is one of the nation's largest suppliers of fresh brewed teas and other specialty dispensed beverages. Our special house blended teas and state of the art brewing process deliver the best of the best, with every single glass – just ask all of our competitors who lost in those taste tests.

In 1996, TEAZZERS changed the iced tea game with its patented T-100 single cup brewer. Today, in addition to selling and supporting commercial brewers from brands such as Bunn and Curtis, TEAZZERS is proud to deliver its newest innovation, the TEAZZERS SmartBrew system. Created in partnership with Newco, a leading beverage solutions trailblazer, TEAZZERS SmartBrew is IOT-enabled with capabilities to communicate information about each brewing event to a cloud database. The machine is equipped with an 8-inch touchscreen display, BIB sweetener storage under the urns, remote recipe management, and freshness timers, all for enhanced category management.

It takes a special company to patent a process for something as ancient as tea, but our team is never done thinking up better ways to brew. If you're not carrying TEAZZERS fresh-brewed tea, you're missing out on providing your customers an on-trend, healthier and oh-so-satisfying alternative to other beverages. Not to mention more profits for you. After all, tea is the second most consumed beverage in the world.

Let us help you determine the best tea and equipment program for you, and transform your retail location into a tea destination, with TEAZZERS.

BIC Lighter Safety Report: Low-Quality Lighter Imports Create Urgent Need for Lighter Safety Education

Findings Reaffirm Urgent Need for Lighter Safety Education

BIC, a world leader in manufacturing safe, high-quality lighters, unveiled its inaugural Lighter Safety Report drawing attention to a concerning influx of low-quality, unsafe lighter imports into the United States. This finding, paired with a lack of education about lighter safety, threatens consumers' safety.

Twenty-five years ago, with the support of BIC, the Consumer Product Safety Commission (CPSC) mandated that all lighters, like BIC, sold in the U.S. have enhanced child-resistant features to reduce the risk of children accidentally starting fires with lighters.

While that is the only requirement issued by the CPSC, ASTM International, a standards-developing organization, established voluntary

lighter safety standards consistent with specifications that are mandatory in many other parts of the world. However, BIC found that 70% of lighter models tested from the U.S. did not meet these safety standards. This means that many lighters available for purchase could potentially lead to serious fires, property damages or injuries.

"The BIC Lighter Safety Report is intended to educate consumers on the potential dangers of low-quality lighters and ensure they are taking the necessary steps to protect themselves and their families when purchasing, using and storing lighters," said Mary Fox, General Manager of BIC North America.

Additionally, BIC will be incorporating data from the report into its fire safety education play safe! Be safe!® program, hosted in partnership with Fireproof Children. Since 1994, more than 120,000 fire safety education kits have been distributed across the U.S. and Canada, reaching close to 30 million children.

BIC also teamed up with fire safety experts to encourage safer lighter practices for families. In May, BIC hosted a lighter exchange at SunFest music festival, replacing attendees' lighters with an iconic BIC Lighter, trusted for its consistent high-quality and safety.

Full report findings and tips are available on the BIC website: Biclighter.com.

Meet the Newest Member of the SweetARTS Licorice Family

We're crazy passionate about making candy. Every obsession-worthy creation has a sweet flavor with a tart edge. It grabs hold of your senses and shakes them up, reminding you that amazing things happen when you jump into your passions. It's no surprise that SweetARTS Ropes beats all national-branded licorice at +17.5% YTD¹, growing 5x faster than the Total Licorice Segment! That's why we are so excited to introduce to you the newest mouthwatering member of our licorice family: Tangy Strawberry Soft & Chewy Ropes. Now available in a 3.5oz Share Pack, it is the perfect complement to our award-winning Cherry Punch Soft & Chewy Ropes.

Indexing high with millennial consumers², SweetARTS Ropes delivers its signature thrilling jolt of flavor with the bendable fun of a soft licorice. This combination makes candy lovers go crazy about SweetARTS and about life. SweetARTS believes that extreme passions move the world forward and unapologetically inspires passionate misfits to come out and play.

What gets you excited about life? We invite you to come explore the magical world where sweet and tart collide. #FollowYourTART.

The Latest Product Innovation from Republic Tobacco L.P.

Republic Tobacco Proudly Presents J&B® Virgin Rolling Papers

The nation's largest RYO/MYO distributor, Republic Tobacco, is delighted to introduce J&B® Virgin. For generations, J&B® has been a beloved, iconic, family-owned brand, and the #1 selling premium rolling paper in the United States. The innovative new Virgin line represents the brand's dedication to serving the discerning consumer of today by appealing to their desire to follow an eco-friendly, environmentally conscious lifestyle, and a true taste experience.

J&B® Virgin is vegan, GMO free, and made from responsibly harvested fibers that retain their native brown hue. As always, J&B® Virgin is made in France and uses an always-sticks, natural, organic acacia gum. J&B® Virgin is ultra-thin and slightly porous for comfortable, smooth rolling and a truer taste to please experienced and novice consumers alike.

J&B® Virgin Rolling Papers are available in 1-1/4, 1-1/2, Single Wide, and Slim sizes while being packed as 40 boxes per case. A 4-box counter display is available for merchandising and various POP are available to support the brand.

Let us help today! To learn more about what rolling papers can do for your bottom line and grow your OTP category, contact us using the information below:

Jack Link's Continues Innovation Domination

Jack Link's Protein Snacks continues to transform the protein snacking game by developing products that bring new consumers to the category and create new protein snacking occasions. For 2019 innovation, portability and on-the-go snacking continue to be key platforms for the company as it extends its presence outside the main meat snack set. The new products include Jack Link's Smoked Beef Sausages, Jack Link's Steak Bites and Cold Crafted Linkwich.

"We are on a mission to make protein snacking accessible to everyone," said TD Dixon, chief marketing officer at Jack Link's Protein Snacks. "Consumers continue to seek more protein in their diet, so we've focused our innovation efforts, whether that be form, packaging or flavors, to provide consumers new opportunities to engage in the category. These efforts are creating incredible growth for our customers and the entire category."

Jack Link's 2019 new products include:

- **Jack Link's Steak Bites:** Eating America's #1 meat snack brand on the go just got easier, thanks to Jack Link's Steak Bites. In a category that is dominated by sugar, fat, and calories found in sweets and nuts, Jack Link's takes out the competition with new Steak Bites, offered in a one-handed, tear-and-eat snack pack. Jack Link's Steak Bites give consumers exactly what they want – a high-protein, low-fat, handheld snack at an awesome value. Made with 100% beef, the steak bites are an excellent source of protein with 17g of protein in one single pack and only 110 calories. Launch includes two flavor varieties, Original and Teriyaki.
- **Cold Crafted Linkwich:** In 2018, Jack Link's launched Cold Crafted, a new line of fresh and convenient snacking in a refrigerated format. After incredible in-market success, Cold Crafted is introducing the ultimate breadless sandwich, Cold Crafted Linkwich. The Linkwich line includes a grab-and-go combo offering 15g of protein in one serving and only 1g of carbs and sugar. Launch includes three varieties: Colby Jack & Hard Salami, Pepper Jack & Genoa Salami and Cheddar & Hard Salami.
- **Jack Link's Smokehouse Beef Sausages:** In what promises to be the company's most craveable eating experience yet, Jack Link's new Smokehouse line brings true craft-style products to the meat snack category. Smokehouse Beef Sausages will be the first product launched under the new line. Sausages continue to be the fastest growing meat segment, and Jack Link's is taking it one step further, introducing a 100% beef smoked sausage snack option. The launch includes two flavor varieties, Original and Hot & Spicy.

Visit www.jacklinks.com to learn more about the entire portfolio of Jack Link's snacks.

Acqua Panna® Natural Spring Water

Bottled Water

- The #1 Beverage Category in all retail channels, due to consumers shifting towards Healthy Hydration to fulfill their beverage needs.

Premium Still Water

- A key driver of the Category Growth, growing at 16% and projected to continue growing with PET being the #1 Format.
- New Premium Still Brands introduced in the last 3 Years accounted for over 75% of the Premium Segment Growth
- New Households have been entering the Premium Still Category rapidly, with over 25% new Households in the last year.
- Consumers have gravitated to Segment due to the Quality of the Source, Taste and Functional Benefits that Premium Waters have proven to provide.

Nestlé Waters North America, Inc.
www.nestle-waters.com

Acqua Panna® Natural Spring Water

- Positioned perfectly to capitalize on and drive the growth of the Premium Still Segment. Bottled at the source in Tuscany, it has a unique mineral balance which is naturally alkaline giving it a distinctively smooth taste.
- Consumers have spoken and love the taste of Acqua Panna which is driving significant growth in Convenience at +19%.
- The expanded Portfolio fits Consumers needs perfectly, with new sleek PET Bottles in a 750ml Flip Cap Top and 1L Size, both perfect for On-the-Go consumption.

In Grocery, Acqua Panna currently outperforms many Premium Brands that are commonly found in C-Store Cold Vaults while driving 21% Growth and High Margins.

Kellogg's Snack Solutions

Seasonal promotions can be a great way to increase sales and profits during specific times of year. These special offers, discounts or limited-edition products can be tied to a specific holiday; a certain time of year, such as back-to-school; or even a major sporting event, when fans love to show team pride. Attracting attention to your business during these times can help increase revenue at an otherwise quiet period.

Increasing interest at unique times of the year through seasonal promotions can also give operators an opportunity to convert one-time customers into loyal patrons by providing a high-quality experience that also boosts their store brand and visibility among customers.

Seasonal promotion periods provide a unique opportunity to meet consumer needs with a selection of snack and grab-and-go options – from salty to sweet and savory, single-serve to shareable. Kellogg's® can help you provide a wide variety of choices, including Rice Krispies Treats®, Pringles®, Pop-Tarts® and Cheez-It®.

®, TM, © 2018 Kellogg NA Co.

Prairie City Bakery Introduces a New Soft, Frosted Cookie

Snacking occasions continue to be on the rise and more than ever, consumers are snacking multiple times a day. This trend, in turn, has consumers increasingly searching for convenient, portable products that allow them a balance between health and indulgence.

Cookies uniquely fill this need by offering consumers hand held convenience, a versatile platform for unique flavors and a variety of different portion sizes. These top sellers continue to grow, with a year over year increase of 2.7% or \$8.5 billion according to IRI for the 52 weeks ending 3/25/18.

With this in mind, Prairie City Bakery is proud to introduce a new addition to their famous cookie line – Pink Celebration. This great tasting soft frosted cookie features a creamy frosting with vanilla and butter flavors and a textured sugar cookie base.

Perfect for anyone with a sweet tooth, this cookie is individually wrapped for grab 'n go impulse sales and features a long 30-day shelf life. Your customers won't be able to resist the rich flavor, colorful icing and playful confetti.

Prairie City Bakery provides premium, fully baked, thaw-and-sell bakery solutions to the convenience store, foodservice, grocery, vending and drug channels nationwide. Known for their premium quality and innovation, Prairie City Bakery offers retailers four turnkey programs: Foodservice, Individually Wrapped Breakfast, Individually Wrapped Snacks, and Individually Wrapped Dulce Pradera Mexican Pastry products.

When you think of indulgence, think Prairie City Bakery Pink Celebration Cookies! Visit www.pcbakery.com for details.

Your Perfect Partner in Emerging Industries

Vaping and CBD are hot topics with a lot of regulatory uncertainty. EAlternative Solutions (EAS) can help you navigate it, starting with a broad portfolio of products:

- Leap® Vapor utilizes e-liquids formulated with nicotine salts to give adult tobacco users alternatives beyond smoking. With a full-suite of flavor profiles distinctly developed for mature palates, a larger battery and higher capacity e-liquid pods, our rechargeable model provides choices that fit your store needs. Our Leap Go™ e-cigarette, also formulated with nicotine salts, provides the perfect disposable option for adult smokers.
- Forth™ CBD currently consists of hemp-derived, full-spectrum CBD tincture drops, available in 2 CBD mg levels and 5 flavors. With calibrated droppers and simple-to-understand facts, Forth empowers adult consumers to feel confident in their CBD journey.

Additional CBD product formats designed specifically for the convenience store consumer to be introduced at NACS.

Moreover, we can provide solutions to drive adult consumer traffic and profitability. Our decades of sales, marketing and compliance experience, as well as our relationship with sister company Swisher International, help our channel partners navigate the constantly changing landscape in these new businesses, such as cannabidiol (CBD) and vapor. This enables us to provide exceptional value to each and every relationship we establish.

Visit us at NACS for the latest news!
Booths #2211 (Leap) and #5667 (Forth).
Or learn more at EAlternativeSolutions.com.

WARNING: This product contains nicotine. Nicotine is an addictive chemical.

Capture Healthy Snackers Morning, Noon and Night with Detour SMART!

Detour protein bars is expanding its award-winning product line to include Detour SMART, a breakthrough snack positioned in the sweet-spot between traditional protein bars and the fast-growing cookie segment.

Detour SMART is sure to get the attention of younger, healthy snacking consumers with real, recognizable ingredients; starting with whole grain, organic rolled oats. Detour SMART stands apart by offering snacking excellence with a range of flavors that work perfectly from healthy breakfast, to mid-day snack, to "smart" after dinner treat and every need in between.

"Detour SMART is the right healthy snack for where consumers are going," said Ian Davison, Marketing VP Forward Foods, the owner of Detour. "The right ingredients, the right nutrition and the right delicious flavors create a fantastic value for consumers."

Detour's mission is to create protein bars so insanely delicious you can't wait to eat them. For 15 years, Detour bars have been the gold standard for nutrition and taste, winning many awards including Men's Health protein bar of the year, twice.

Detour SMART has 10grams of protein and less than 4g of sugar, per serving, and are made with whole grain organic rolled oats, real fruit, nuts, and indulgent chocolate. Detour SMART is a good source of fiber, gluten free, and non-gmo. Flavors include: Cookie Dough, Apple Cinnamon, Coconut Almond, Blueberry, Peanut Butter Chocolate and Banana Nut.

Detour protein bars are available at convenience stores nationwide. For more information, visit www.detourbar.com

How to Maintain Diesel Fuel Dispensing Areas

CONCRETE PADS AND PUMP BASES:

Locate a cleaner that cuts through diesel fuel stains. Make sure it does not contain harmful acids or caustics, meets MS4 wastewater regulations, and has oil eating Microbes (**Gorilla XDX**). Apply the product liberally with a hose extender or pump sprayer. Allow 5 minutes contact. Broom off loosened diesel fuel stains. Rinse thoroughly where permitted. In areas where rinsing is not permitted, repeat the process and wipe loosened debris until clean.

DIESEL FUEL DISPENSERS:

Spray a damp towel with a proven cleaner with impressive degreasing properties that will not leave a harmful residue (**Garage Gorilla Pump Cleaner**) and wipe the composite face. Respray a clean section of the towel and wipe pump bottom and sides. Spray the hose and wipe from handle to the pump. Spray the nozzle and handle holder. Allow 30 seconds contact time and wipe.

SHINE AND PROTECT EQUIPMENT:

Locate a durable shine enhancer and protectant (**Gorilla Pump Shine**). Squeeze a small amount on a towel and wipe composite pump faces, sides, and hose. Next wipe trash receptacles and windshield reservoirs.

DE-BUG AND REFRESH TRASH RECEPTACLES:

Bees, flies, and pungent odors annoy customers while pumping fuel. To prevent this, spray a product with a huge, pleasant fragrance that kills odors at the source, with enzymatic action (**Gorilla Odor Killer**). No Odor – No Bees.

Get Started Today!

Secure your Forecourt First Kit which contains all 4 products, instructions, and the accessories needed to maintain diesel fuel areas. It is available through most convenience store grocery wholesalers for under \$40.

We all know a clean store makes a difference. Did you know that using the right surface disinfecting and sanitizing products plays an important role in not only the cleanliness of your store, but the health of your employees and guests?

Selecting the Right Products

With so many surface disinfecting and sanitizing options out there, how do you select the right one for your store? The following are key questions to ask when determining what product is right for your store.

Efficacy

- What is the specific disinfection time of this product?
- Will the surface remain wet long enough to properly disinfect the surface?
- How long does it take to kill important foodborne illnesses such as Norovirus, Salmonella and E. coli?

Safety

- What is the safety profile of the product?
- Are there any precautionary statements?
- Is the product formulated for food-contact surfaces?
- Can the product safely be used on both hard and soft surfaces?
- Is handwashing required after using this product?
- Does the product contain harsh fumes that might irritate employees and guests?

Sustainability

- Is the product EPA Designed for the Environment (DfE) certified?
- What ingredients are in the product?

While this may seem like many questions to consider, the answers to them will help you determine if you are selecting products that deliver on the combination of strong efficacy, safety and sustainability. And, the good news is there are new technologies available that can meet these standards today.

One such technology is new PURELL™ Surface Disinfecting and Sanitizing Products. The patented formulation kills Norovirus, E. coli and Salmonella in 30 seconds, has no harsh chemical fumes, does not require rinsing food contact surfaces and has earned the EPA's Design for the Environment certification.

P&G Joins Environmentally-Friendly, Convenient E-Shopping Platform

The Procter & Gamble Co. announced the introduction of reusable, refillable packaging on some of its most popular products as part of a new effort that aims to change the world's reliance on single use packaging and disposable waste.

Additionally, new "collect and recycle" circular solutions that help eliminate waste were also introduced as part of a partnership with Loop, a circular e-commerce platform developed by international recycling leader TerraCycle. Many of P&G's largest global brands, including Pantene™, Tide™, Cascade™ and Oral-B™ will participate in this innovative platform later this year.

Loop is a first of its kind global packaging and shopping circular solution which aims to improve the environmental performance and convenience standards compared to current e-commerce solutions through packaging that is collected, cleaned, refilled and reused. Loop also offers the option to collect used products from consumers' doorsteps for further recycling or reuse. P&G was the first consumer products company to join Loop.

"We are building on more than 180 years of innovation and world-class consumer insight to enable responsible consumption at scale," said Virginie Helias, P&G's vice president and chief sustainability officer. "We're proud to partner with TerraCycle as the first CPG company to be part of this transformative program, which is just one of the many ways we are delivering on our Ambition 2030 goals to accelerate sustainable innovation and drive circular solutions."

P&G scientists and engineers have developed innovative manufacturing, packaging and distribution solutions that will delight consumers and make sustainable living easy for participating consumers. Eleven P&G brands will be available in Loop in one of three formats. The Loop system will be validated and optimized through real in-market learning experiments beginning in mid-2019 in New York and Paris. "The time to act is now. We are passionate about harnessing the power of our global reach and the strength of our trusted global brands to scale-up more sustainable solutions. Transformative partnerships are key to achieve this mission as no one can succeed alone," Helias said.

Vigil Trends - Decrease In-Store Shrink

Loss of inventory due to shoplifting and employee theft costs retailers in the U.S. 1.85% of total sales, or about \$42 billion in shrinkage each year. Roughly 50% of retail shrink is internal: employees stealing from their company over and over again. CBE is here to show how VIGIL Trends will reduce your loss and identify areas that may require additional training for your employees.

VIGIL Trends is cloud-based business intelligence software developed by 3xLOGIC, Inc. It is a proven,

highly-effective tool to keep an eye on your business, catch employees stealing from you and deter future theft. VIGIL Trends incorporates exception-based reporting and video data into an attractive, user-friendly dashboard providing a simple visual snapshot of your business. Within hours of implementing Trends, our end users have uncovered employee theft at their stores, leading to arrest, indictment, and asset recovery.

VIGIL Trends' sophisticated algorithm identifies top offenders in your organization by assigning a weighted score to each type of transaction you have identified as critical to watch. The Trends dashboard prioritizes the offenders with the highest scores. Click on the score and view the video of every incident flagged. Trends gives you the information to take the power away from dishonest employees.

Trends optimizes your visibility while reducing loss with these key features:

- Weighted POS Exception Reporting
- Optimized Video Experience
- Operational Audit Capabilities
- Case Management

CBE is a nationwide technology deployment company and systems integrator for over 40 years. Providing the latest technologies in point of sales systems, video surveillance, alarms audio and network infrastructure for retail chains through the U.S. At CBE our goal is to develop long term relationships not short-term deals.

Contact CBE today for more information on VIGIL Trends, info@cbe-inc.com or 800-447-7038.
